GENERAL TECHNOLOG Company	Product/activity	Location	URL
	-	Location	ORL
Advion BioSciences	Has an ESI chip for MS manufactured by Intellisense.	Tel NT XZ I	, .
Affibady	Contract LC company.	Ithaca, New York	www.advion.com
Affibody	Uses propietary protein to study protein–protein interactions. Associated with Gyros.	Stockholm, Sweden	www.affibody.com
ARRM	Robotics, associated with Hochstrasser and Genetix.	Adelaide, Australia	www.arrm.com
Biacore	Ligand fishing; surface plasmon resonance	Automatice, Australia	www.urrm.com
	for real-time detection and monitoring of		
	biomolecular binding events.	Uppsala, Sweden	www.biacore.se/proteomics
BioRobotics	Robotics for arrays and colony picking.	Cambridge, UK	www.biorobotics.com
Borealis Biosciences	Protein identification, affinity chromatography.	Toronto, Canada	www.protein-affinity.com
Caliper	Microfluidics-based 'lab-on-a-chip'. Capillary-based		
	'sipper chip' for continuous screening assays.		
	Fluorogenic, electrophoretic mobility, including		
	kinases and phosphatases. To come are calcium		
	flux and membrane potential. Collaborates with Structural GenomiX and Agilent.	Mountain View, California	www.calipertech.com
Caprion Pharmaceuticals	CellCarta organelle purification-based identification	Wouldani View, California	www.canpertecn.com
capitor i narmaceuticais	of rare proteins.	Montreal, Canada	www.caprion.com
Ciphergen	Protein-chip reader, chip software, chip arrays	Montreal, Cunada	www.euprion.com
	(hydrophilic/hydrophobic, anion/cation exchange,		
	immobilized metal), SELDI chip, protein-chip		
	arrays for affinity capture.	Fremont, California	www.ciphergen.com
Cytomyx	Provides proteomics services from sample		
	preparation through to MS.	Cambridge, UK	www.cytomyx.com
Europroteome	Works on epithelial cancers.	Hennigsdorf, Germany	www.europroteome.com
Genetix	GelPix spot excision, array products, robotics.	New Milton, UK	www.genetix.com
Genomic Solutions	Investigator proteomic system, fully integrated		
	solution for identifying and characterizing proteins. ProGest sample preparation station.	Ann Arbor, Michigan	www.gonomicsolutions.com
Gyros	Nanoscale 'lab-on-a-CD' for MS.	Uppsala, Sweden	www.genomicsolutions.com www.gyrosmicro.com
Ingeny	On the verge of introducing an automated	oppsaid, Sweden	www.grosinero.com
ingeny	2D-gel system.	Goes, Netherlands	www.ingeny.com
Integrative Proteomics	Uses Bruker XR, NMR, MS equipment for		
5	functional proteomics.	Toronto, Canada	www.integrativeproteomics.com
Large Scale Biology	Produces therapeutic proteins in plants. Is		
	developing an antibody chip with Biosite		
	2D-gel factory.	Vacaville, California	www.lsbc.com
LumiCyte	Protein biomarker profiles for drug development.	Fremont, California	www.lumicyte.com
MediChem	Protein expression, crystallization, structure,	Weedwidge Illineis	·······
	through subsidiary companies.	Woodridge, Illinois	www.medichem.com/
Myriad Genetics	ProNet yeast two-hybrid protein interaction		services/proteomics.htm
Mynad Genetics	system, ProSpec MS-based drug discovery.	Salt Lake City, Utah	www.myriad.com
NextGen Sciences	Platform technologies in proteomics, transcriptomics	Suit Lake Oity, Otali	www.myrad.com
	and genomics.	Huntingdon, UK	www.nextgensciences.com
Oxford GlycoSciences	2D gels, developing ICAT/MALDI-TOF system.	Oxford, UK	www.ogs.com
Pepscan Systems	Protein-protein interactions based on epitopes.		0
	epitope mapping, combinatorial peptide arrays and		
	peptidomimetics. Lead development service.	Lelystad, Netherlands	www.pepscan.nl
Phylos	Antibody-based high-throughput 'HIP' chip;		
	ProFusion selection technology based on protein	Louisston Marsh 1	
Protagon	fused to its own mRNA.	Lexington, Massachusetts	www.phylos.com
Protagen Proteomic Solutions	Phosphorylation analysis.	Bochum, Germany St Marcol, Franco	www.protagen.de www.proteomicsolutions.fr
Protein Pathways	Proteomics service company. Pathway analysis in mammals and microbes.	St Marcel, France Los Angeles	www.proteomicsolutions.ir www.proteinpathways.com
Proteome Sciences	Identifies protein markers in human disease	LUS Aliguits	www.proteinpatiways.com
	targets. US subsidiary is Intronn LLC.	Cobham, Surrey, UK	www.proteome.co.uk
Proteome Systems	Glycosylation analysis, 2D-gel excision equipment,	, Surrej, Or	
	chemical printer for electroblotting gels to		
	membranes, Axima CFR MS machine.	Sydney, Australia	www.proteomesystems.com
ProteoSys	Analyses modifications, quantifies down to		_
	sub-attomolar range.	Mainz, Germany	www.proteosys.com
Rigel	Oncology proteins, ubiquitin ligase.	South San Francisco, CA	www.rigel.com
Roche	Proteomics research centre.	Basel, Switzerland	www.roche.com
Sense Proteomic	COVET functional protein array.	Cambridge, UK	www.sensetherapeutic.com
Sensium Technologies	Uses biosensors to detect low abundance proteins,	Edmonton Consta	unu holizhianhanna aan
Somal onic	proteomics subsidiary of Aurora/Helix BioPharma.	Edmonton, Canada Boulder, Colorado	www.helixbiopharma.com
SomaLogic Syrrx	Aptamer arrays, partner with Celera. Structural proteomics, proteomics discovery	Boulder, Colorado	www.somalogic.com
CJIIX	platform with Eli Lilly.	San Diego, California	www.syrrx.com
Virtek	Desktop array reader can be used for 2D gels.	Ontario, Canada	www.virtek.ca
WITA Proteomics	High-resolution 2D-gel platform, protein identification.		
-	Alliance with Pharmagene.	Tetlow, Germany	www.wita-proteomics.com
Zymark	Robots for screening, liquid handling, plate management.	Hopkinton, Massachusetts	www.zymark.com
Zyomyx	Protein-chip development.	Hayward, California	www.zyomyx.com
